

## TO THE READERS

*Dear colleagues,*

*Vol. 4, No. 2, 2000, of the international scientific journal THERMAL SCIENCE is in front of you. We are now facing the fifth year of the THERMAL SCIENCE journal.*

*Yugoslav Society of Heat Transfer Engineers is founder, and VINČA Institute of Nuclear Sciences is publisher of the journal. The aim of the journal THERMAL SCIENCE is to enable better and faster information of the world scientific community about the best recent scientific results achieved in Yugoslavia. Researchers from other countries are, also, welcome to publish their papers in THERMAL SCIENCE, in order to inform Yugoslav scientists with the modern research topics and trends.*

*Yugoslav Society of Heat Transfer Engineers did in the past years many efforts to reach and maintain international standards of the published papers. About the quality of the journal take care International Advisory Board and wide board of reviewers, distinguished experts in different topics.*

*Journal THERMAL SCIENCE was published twice a year. If interest for publishing will grow, in the future four issues per year are planned.*

*Journal THERMAL SCIENCE is open to the original scientific papers in: heat and mass transfer, fluid mechanics and turbulence, combustion and chemical processes dealing with the problems in power generation and energy conversion, exploitation of fossil, nuclear and renewable energy resources, organization of physical and chemical processes in units and equipment in thermal engineering, chemical engineering, power and heat generation, plasma technology, etc. Editorial Board will invite also, experts and distinguished scientists to prepare review papers in most interesting topics.*

*Scientists from Yugoslavia, and all other countries, are invited to submit their papers to the editor, on the added address. All information also can be obtained on the telephone number, fax number and E-mail.*

*Editor-in-Chief  
of the journal THERMAL SCIENCE  
Prof. Dr. Simeon Oka, dipl. ing.*
